#### **IN BRIEF**

“Fergus was an extremely well balanced working gundog that was extensively hunted on the range of game available in Australia including: brown quail, stubble quail, hares, rabbits, foxes, ducks etc.

Equally proficient on land as in water he exhibited all the traits of a great all rounder.

His immense drive, birdiness and exquisite nose work placed him at the forefront in Utility Field Trial competitions.

He was the first National Utility Field Trial Champion to also be a Retrieving Trial Champion.” **Elio Colasimone**
