In Brief

“Cassie only competed for 9 years and only produced three litters but from those three litters she produced two Dual winning National Champions and one Triple Champion, and many Retrieving Trial Champions and her progeny went on to produce many more champions and very competitive trial dogs. Her pedigree is found in many Champions and National RT. Winners and makes up the basis of a large number of dog pedigrees from her era.

The three matings with RT Ch. Grenada Andy produced many Retrieving Trial champions, with the first and second generation descendants winning 6 National RT's in succession.”
